Trip Leader Dennis Conley has led numerous early season trips to Southern Vermont and cannot wait to host another weekend of winter adventures with new and old friends!

Stratton truly is a family ski resort. With 40% novice terrain, 35% intermediate and 25% advanced, your entire family can enjoy a variety of runs across the mountain. Stratton is southern Vermont's highest peak at 3,875 feet. In the winter, the resort receives an average annual snowfall of 180 inches. To make the most of the cold winter weather, Stratton's snowmaking system covers 95% of the mountain with more than 1,200 snowguns.
